

# Uriscreen™

## RAPID SCREEN FOR URINARY TRACT INFECTION (UTI)

- ▶ Ideal for screening of UTI in physicians' offices, long term and urgent care settings.
- ▶ Efficient way to screen out negative specimens and determine need for further testing.
- ▶ Early diagnosis prevents unnecessary treatment and minimizes costly complications of UTI.

### ECONOMICAL:

- Cost effective.
- Can be used to compliment conventional culture methods.

### PERFORMANCE:

- Highly sensitive test for bacteriuria and presence of somatic cells in urine.
- Sensitivity: 94%.
- 95% Negative Predictive Value (higher than urine dipstick method).
- Improved performance over routine urinalysis.

### EASY TO USE:

- Rapid results in less than 2 minutes.
- Only three procedural steps.
- Requires no instrumentation.

### SHELF LIFE:

- Thirty six (36) months at room temperature (from date of manufacture).

### CPT CODE:

- 81007QW

# Uriscreen™

## Highlights and Advantages:

- ▶ Studies demonstrate that Accutest Uriscreen is more sensitive than nitrite and leukocyte esterase tests and is more reliable than dipstick in identifying the presence of UTI.
- ▶ Only 10 - 15% of urine cultures are confirmed positive. The cost of a urine culture is significantly higher than the cost of prescreening with Accutest Uriscreen.

## Simple Procedure:

Indicates presence of UTI (bacteriuria/hematuria/pyuria)

### Ordering Information

Cat. Number	Product Name	Number of Tests
ID601	Accutest Uriscreen™	20

## Kit Contents:

- 20 stoppered test tubes with test reagent powder.
- 1 dropper bottle with 10% hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) solution.
- 20 disposable 20 mL pipettes.
- 1 instruction manual
